

# CMPT 276 - AI Disclosure Form - Summer 2025

Why this survey? This disclosure form aims to *help us understand and reduce any potential risks* related to the use of AI tools in this course.

Please complete the survey **by yourself** and be **truthful**. *Using AI tools will not negatively affect your marks for the assignment/lab/etc.*

What do we mean by AI tools in this survey?

AI content generators refer to any tools that create any type of content, including (but not limited to):

- ChatGPT and all other large-scale language models;
- Stable Diffusion and other AI-based Image Generators;
- Code extensions for IDEs;
- Other tools that are capable of generating text, image, codes, or any other content for the course work. BUT, Grammarly and other grammar checkers are NOT included.

For more information on our policy, please refer to: <https://parsa-rajabi.github.io/CMPT-276/#/ai-policy>.

1. First Name (as appears on Canvas) \*

Nick

2. Last Name (as appears on Canvas) \*

Lei

3. Student ID \*

301577719

4. Which assignment/lab/project submission is this AI use disclosure for? \*

Project submissions are included as "MX" aka Milestone X, where X is the milestone number

M2-Code

5. How do you feel about using AI content generators in relation to your personal standards of academic integrity for this submission? \*

	Completely Acceptable	Somewhat Acceptable	Neutral	Somewhat Unacceptable	Completely Unacceptable
In my personal standard of academic integrity, using AI content generators for this submission is...	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

6. Please explain your rating above regarding academic integrity of AI use for this submission. Why? (Write in 2-3 sentences) \*

The coding part of milestone 2 should be completely acceptable with AI because this is most people's first time building a fully developed website with front and backend. Things like setup and connection from frontend to backend can be assisted by AI. Furthermore, the usage of AI can help teach students who are unfamiliar with their tech stack.

7. Did you use AI tools for this submission? \*

☒ Yes

☐ No

8. For this submission, how would you rate the relative contribution made by you versus AI? \*

	Mostly by myself, some contribution by AI	Evenly split between myself and AI	Mostly by AI, some contribution by myself	Entirely by AI, no contribution from myself
This submission is...	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>

9. How did using AI content generators impact **your learning** for this submission? \*

	Greatly benefited my learning	Somewhat benefited my learning	Had no impact on my learning	Somewhat hindered my learning	Greatly hindered my learning
Using AI content generators for this submission...	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

10. Please explain your rating above about AI's impact on your learning for this submission. (Write in 2-3 sentences) \*

I have almost no experience with JavaScript starting this project, yet through the usage of AI and reading through teammates code, I've gotten much more proficient at it. After generating a few example codes with AI, I was able to get so good that I took the role of debugging and maintaining consistent code.

11. List the name all the AI tools that you used for this submission \*

ChatGPT

12. How confident were you in AI's responses that you received? \*

- ☐ Confident
- ☒ Somewhat confident
- ☐ Neutral
- ☐ Somewhat not confident
- ☐ Not confident

13. How did you ensure the answer you received from the AI tool was correct? \*

With previous knowledge in Java, Python, C, C++, I can say I am quite confident in understanding modern code languages/syntax/logic. So, after learning about JS's syntax, I was able to manually iterate through all the code and grasp how AI was trying to make it work.

14. Did you at any point abandon using AI tools and seek other resources? Explain your answer.  
(optional)

What made you abandon using the AI tool? Were you more successful using other resources? Input N/A if you have not used any

Yes, and the other resources was myself. I remember debugging a information transferring issue between pages, and AI was not able to find where the issue was coming from. From there, I spent a long time navigating through the user flow and double checked all variables to eventually find that our location:state was written as something like "state: dataA, dataB;" rather than "state:{dataA, dataB};"

15. For each of the following items, how would you rate the relative contribution made by you versus AI? \*

	Entirely by myself, no contribution from AI	Mostly by myself, some contribution by AI	Evenly split between myself and AI	Mostly by AI, some contribution by myself	Entirely by AI, no contribution from myself	Not applicable
<b>Writing - Proofreading:</b> To revise written work for grammar, typos, style, and other related items	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<b>Writing - Text Completion:</b> To complete sentences, paragraphs or even entire documents	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

16. Please explain your ratings above, especially if you have AI tools for "other" types of work. \*

The writing and text related items were checked because I used AI to assist my in the creation of prompts for our DeepSeek API. I would send a large request explaining to GPT what I'd like DeepSeek to do, it would then generate the prompt and I will revise and improve based on what GPT says. Finally, Ill send it back to GPT to make sure it's good.

The much of the coding part was generated by AI and will again go under my revision and correction for consistency, and finally tested in our program. Debugging is mostly done by myself with console.log and iterating through the code flow, here and there assisted by AI.
