

# CMPT 276 - AI Disclosure Form - Summer 2025

Why this survey? This disclosure form aims to *help us understand and reduce any potential risks* related to the use of AI tools in this course.

Please complete the survey **by yourself** and be **truthful**. *Using AI tools will not negatively affect your marks for the assignment/lab/etc.*

What do we mean by AI tools in this survey?

AI content generators refer to any tools that create any type of content, including (but not limited to):

- ChatGPT and all other large-scale language models;
- Stable Diffusion and other AI-based Image Generators;
- Code extensions for IDEs;
- Other tools that are capable of generating text, image, codes, or any other content for the course work. BUT, Grammarly and other grammar checkers are NOT included.

Hi, Tony. When you submit this form, the owner will see your name and email address.

\* Required

1. First Name (as appears on Canvas) \* 

Tony

2. Last Name (as appears on Canvas) \* 

Wu

3. Student ID \* 

301556479

4. Which assignment/lab/project submission is this AI use disclosure for? \* 

Project submissions are included as "MX" aka Milestone X, where X is the milestone number

M2-Code

5. How do you feel about using AI content generators in relation to your personal standards of academic integrity for this submission? \*

	Completely Acceptable	Somewhat Acceptable	Neutral	Somewhat Unacceptable	Completely Unacceptable
In my personal standard of academic integrity, using AI content generators for this submission is...	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

6. Please explain your rating above regarding academic integrity of AI use for this submission. Why? (Write in 2-3 sentences) \*

I believe that coming into this project and this course, because we aren't expected to know everything about web development and the project, having the guidance of external tools like AI and open source code to guide our process is very reasonable as we do not have the answers to everything. There are times where utilizing AI is just the most efficient way to get past certain obstacles. Moreover, I believe that the main objective of this project is not to be able to code everything and solve every technical problem by ourselves, but more so on the planning, collaboration, and the process of this entire development lifecycle, so having AI by our sides as a

7. Did you use AI tools for this submission? \*

☒ Yes

☐ No

8. For this submission, how would you rate the relative contribution made by you versus AI? \*

	Mostly by myself, some contribution by AI	Evenly split between myself and AI	Mostly by AI, some contribution by myself	Entirely by AI, no contribution from myself
This submission is...	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>

9. How did using AI content generators impact **your learning** for this submission? \* 

	Greatly benefited my learning	Somewhat benefited my learning	Had no impact on my learning	Somewhat hindered my learning	Greatly hindered my learning
Using AI content generators for this submission...	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

10. Please explain your rating above about AI's impact on your learning for this submission. (Write in 2-3 sentences) \* 

It greatly benefited my learning as there were many things that I did not know how to do, such as implementing certain features that our group wanted to have on our website, and having utilized AI and open source code allowed me to have a foundation of what I needed, where I then took that and made it my own and tweaked certain portions of the code so that it performed exactly what our website needed. I did not only utilized it to generate me lines of code, but utilized it to explain to me the different components of the code so I knew exactly what I needed to adjust depending on my needs. It was a major tool in teaching me more about how the components worked by themselves, as well as together amongst each other, and having it by my side allowed me to learn

11. List the name all the AI tools that you used for this submission \* 

ChatGPT  
Google Search AI

12. How confident were you in AI's responses that you received? \* 

☐ Confident

- ☐ Somewhat confident
- ☒ Neutral
- ☐ Somewhat not confident
- ☐ Not confident

13. How did you ensure the answer you received from the AI tool was correct? \* 

I was able to ensure it because the answer that I got was not the final answer, but more so a "clue" that allowed me to reach the final answer myself. Seeing the changes that I make locally and seeing the different components come together and work together gave me that final confirmation that the answer I got from the AI was correct

14. Did you at any point abandon using AI tools and seek other resources? Explain your answer. (optional) 

What made you abandon using the AI tool? Were you more successful using other resources? Input N/A if you have not used any

Yes, there were at times where I had an idea in mind that I wanted to turn into code that would display onto the website the way that I wanted to. However, the AI was unable to match that image that I had in mind, so instead I would the seek resources from either <https://uiverse.io/> or other external websites, where they had preset code of styled components that I could reference.

15. For each of the following items, how would you rate the relative contribution made by you versus AI? \* 

Entirely by myself, no contribution from AI	Mostly by myself, some contribution by AI	Evenly split between myself and AI	Mostly by AI, some contribution by myself	Entirely by AI, no contribution from myself	Not applicable
---------------------------------------------	-------------------------------------------	------------------------------------	-------------------------------------------	---------------------------------------------	----------------

**Writing - Proofreading:**

To revise written work for grammar, typos, style, and other related items

16. Please explain your ratings above, especially if you have AI tools for "other" types of work. \*

When I first had the open source code, I had to fully use AI to convert it from HTML/CSS to React/Tailwind. However, following that, I relied on myself to then use that code into something that is applicable and blends into my website the way that I want to.
