In the report, I mostly contributed on writing about the CI/CD pipeline, Testing Strategy, & the MVC Model. The CI/CD pipeline was mostly done on my own with AI checking my writing, structure. However, I did have AI provide me explanations on about the advanced configurations, assisting me on writing that section of the CI/CD pipeline topic. Moreover, Testing strategy was also written in the same way with AI double checking my work. In regards of this one, AI informed me about stress testing, which our group didn't focus on. I later added some stress cases for the TA and our groupmates to try. Finally, the MVC model is simply an update of the M1 MVC model, which did not need the assistance of AI.
